ABOUT ME

I am a Full-stack Software Engineer with over 10 years of specialized experience in Web and Mobile App development. Previously, I worked with **Udemy** (4 years on-site, 2 years remote) and **Carbon Health** San Francisco (7 years remote). I am currently searching for either a new contract or a permanent position.

I was hired as the **#5** engineer within the **Udemy** engineering team, eventually expanding to over 200 members. I have completed several projects that significantly contributed to our company's growth and enhanced the marketing department's efforts.

Availability Calendar: https://calendar.app.google/uLpTtbrZSkpyTJwu5

I'm currently part of the international jury of AWWWARDS.

EXPERIENCE

Senior Full Stack Developer | Carbon Health | San Francisco Jun 2017 - Present

- **Carbon Health, Inc**. is a modern health chain providing urgent primary care for more accessible everyday health.
- I was one of the first engineers in Carbon Health.
- My first project was to build a public website for Carbon Health, which should be SEO-friendly and fast. Today, Carbon Health is visited over

400k/month, and over 500 appointments are booked daily.

- I worked on Mobile Apps (IOS, Android) where we used React Native and React Native web. The Carbon Health app has 4.8 stars on the IOS Store today.
- **Technologies:** Nextjs · React.js · React Native · React Native Web · GraphQL · Node.js · Kotlin · Scala · Django · PostgreSQL · HTML · Redux.js · AWS Lambda · Cloudflare Workers · Storybook · Cypress · i18Next Localization · Google Cloud Apis

Front-end Developer | <u>Udemy</u> | San Francisco   Jul 2011 - Feb 2017

- **Udemy, Inc**. is an education technology company that provides an online learning and teaching platform. It's one of the top online education platforms today.
- I was hired as the #5 engineer within the Udemy engineering team
- I developed Web-based user interfaces using HTML5, CSS3, Angular, and React.js based on wireframes, flowcharts, and other documentation.
- **Technologies:** CSS · Angular.js · React.js · HTML · PHP · Django

Freelance front-end developer   January 2010–April 2011

- Front-end developer working on various projects. Improved CSS3 and HTML5 skills. Projects I worked on: [Activision DJ Hero](#), [Betterfly](#), [Dreamspace](#)

Front-end Developer | <u>Trafo</u>, Istanbul   February 2008–January 2010

- I worked with the Trafo Interactive team to plan and rapidly create a reusable, responsive front end. I worked on online projects like [Amnesty International Turkey](#), [Bridgestone Turkey](#), and Starbucks.

HONORS, AWARDS AND ARTICLES

- I have been featured as one of the international jury members in the Awwwards annual book published in 2011 & 2012 - https://geryit.com/lib/awwwards-book-screenshot.jpg

- Anadolu University

  BMA, Business Administration 2009–2012

- Anadolu University

  Geophysical Engineering 2002–2004

RECOMMENDATIONS

"As a foundational software engineer at Carbon Health, Goksel was instrumental in building the company's digital platforms. Goksel led the development of the Carbon Health public website, optimizing for speed and search engine visibility. They also played a key role in developing Carbon Health's mobile applications, utilizing React Native to enhance user experience. Goksel's proficiency with a suite of technologies such as Next.js, React, GraphQL, Node.js, Kotlin, and Scala, along with their adept use of Cloudflare Workers, has been crucial to the company's technological advancement in the healthcare industry."

Murat Akbal, Director of Engineering, Carbon Health

"Goksel is an exceptional front-end engineer with industry-leading skills. He's been able to precision code any designs given for tight deadlines. He's also a fun teammate, inspiring everyone around him. It's been a great experience working alongside him."

Onur Oztaskiran, Design Lead, Udemy

"Goksel is a highly creative and fast front-end developer. While working with us on Betterfly.com, his passion for his work made him work late hours and weekends to meet deadlines with no complaints, making him a valuable team member. He has a great personality, and I look forward to working with him on future projects."

Emily Pugh, Interactive Producer, Betterfly

"I had the opportunity to work with Goksel on redesigning our website (www.zaplee.com). Working with the designer, Goksel created a website recognized as a leading example of aesthetics, flow, and user interaction. He's been outstanding both in programming and the communication surrounding the project. It is highly recommended if you want complex front-end programming within budget, time, and excellent quality. I hope you don't take too much of his time, as we look forward to him doing some additional work soon."

Mihir Kothari, IT Consultant, Zaplee

"I worked with Goksel for over six months on web development, and he's fantastic. He's an ace developer with a unique skill set that spans extensive front-end to back-end development. I worked with him on several projects; he is a great developer to add to any team".

Yavuz Akyazici, General Manager, Trafo

"Having known Goksel Eryigit for over 20 years and collaborating on various

projects, I can attest to his exceptional skills as a full-stack developer. His technical proficiency, dedication to quality, and collaborative spirit make him a standout in the field. Goksel's consistent ability to drive projects to success showcases his value. I fully endorse him for any advanced development role".

Bulent Kocaman, Director, PD Hosting.
